

WINNEBAGO GOES GREEN IN 2011

From 2011 Winnebago Motorhomes now incorporate an advanced synthetic composite panel called SuperLite in our motorhome sidewalls alleviating the use of plywood panels in our wall construction.

SuperLite sheet is:

- **Moisture Resistant** – to avoid harmful effects of moisture like rot and mold
- **Long Lasting** – designed to withstand the test of time
- **Light Weight** – meaning maximum fuel economy and carrying capacity
- **Extremely Strong** – with good dimensional stability, and high impact resistance
- **Ecologically Responsible** – made of recyclable composite material
- **Thermally Insulating** – making it a body panel for all seasons

Winnebago is conscious of protecting our environment and the inclusion of SuperLite panel in the construction of our motorhome walls reduces the amount of trees that need to be felled and improves the fuel economy of our motorhomes.

Winnebago – Working Green

NEW MODEL RELEASE 2011

new model release

Esperance A Class – Unique and versatile

Change your outlook everyday with the Esperance Premium A class vehicle, a class all on its own. The external appearance is striking complimented by the huge amount of liveable space within. At the push of a button the internal space increases in size so whether enjoying a romantic dinner for two or a lively family dinner the Esperance premium caters for it all.

Cruise along the highways comfortably and economically in the Esperance premium, powered by the Iveco 50C18, 3 litre turbo diesel with 6 speed automated manual transmission, the dual rear wheels driving the Esperance along with relative ease.

Take in the panoramic views that the country has to offer through the massive front windscreen and the wrap around dash provides easy and convenient access to the array of control features.

Swivel the plush ultra-leather driver or passenger lounge chairs to relax back and watch a movie or chosen TV program, or curl up and read a book the choice is yours.

The rear bedroom area has a large semi walk around bed that comfortably sleeps two, if you would like to bring along a couple more guests, just pull down the bed above the driver and passenger seat or convert the roomy dinette.

The bathroom is located at the rear with separate shower and toilet facilities, ample space to change into something special for a night out on the town.

Relax and savour the easygoing lifestyle the Esperance premium has to offer.

Ceduna Range – Boldly defined

The Ceduna combines traditional styling and exceptional strength with a strikingly large amount of liveable interior space and luxury features for the complete motorhome package. Built on a VW Crafter 2.5Ltr TDI turbo diesel with six speed automated manual transmission, the Ceduna moves along the highways and byways with agility and power to spare.

Your lounge room, located in the rear of the Ceduna boldly defines the meaning of relaxation. Relax on the wrap around lounge area and take in the panoramic outdoors through the enormous windows in almost every direction, put your feet up and enjoy the latest DVD or perhaps just sit outside in the shade of the huge roll out awning.

Featuring an electronic roll down bed that drops from the ceiling with two single beds underneath and a large cab over bed at the front, the Ceduna comfortably sleeps six people and offers seat belt safety for everyone.

The Ceduna is equipped with a unique dry bathroom system which allows you to shower freely without saturating the toilet; the vanity mirror provides ample light to allow you to pop on your make up or for a close shave.

The kitchen is expansive and food easily prepared with oven, grill, 3 burner cook top with one electric plate and stainless steel carousel microwave conveniently at hand. Your fresh food and cold beverages are always available from the large automated three way refrigerator/freezer.

There is plenty of storage inside and out, and taking those awkward items such as your fishing rods along on your adventure is a breeze thanks to the rear pass through storage area.

Ceduna, everything you've wanted in a motorhome and more.

Eyre Range – Sleekly seductive

So sleekly seductive inside and out, the eye catching Winnebago Eyre is the lowest profile motorhome on the market. Oozing with luxury styling, the Eyre makes every trip an indulgence and storage under the carport a breeze.

There are so many unique and practical features to be found in the Winnebago Eyre, features like the amazing amount of storage space both inside and out including the unique walk in wardrobe with drawers and ample hanging space which needs to be seen to be believed.

The car like and powerful Fiat Ducato turbo diesel chassis with 6 speed automated manual transmission is matched perfectly to the low profile ALKO motorhome chassis offering a stable extra wide track and greatly increased load carrying capacity.

Trendy curves throughout, the kitchen flows with internal grace, compact yet functional with a round stainless steel sink, 3 burner gas cook top, large automated fridge and convection microwave all designed to tantalise your culinary instincts.

The toilet and vanity is separated from the shower recess, plenty of space to ready yourself for your chosen activity, oodles of hot and cold water on tap. Relax on the comfy walk around island bed, have a snooze or catch up on your favourite TV show or DVD.

The Eyre offers something for all those appreciative of style, luxury indulgence and the key to freedom.
